FOR IMMEDIATE RELEASE

NEW USER-FRIENDLY FEATURE FOR PLS WEBSITE

Bohemia, NY – November 17, 2008

Projector Lamp Services has recently launched a new & improved website, www.relampit.com, which highlights a number of transformations that PLS has made over the years. The new website design and features were well accepted by our existing customers, and provided new potential customers with an updated, reliable view of PLS as a whole. With that said, PLS & Relampit.com continue to implement up to the minute website features, the newest of which is a user-friendly key word search bar.

PLS has gone to great lengths to guarantee customers enter a website that is user-friendly and provides ample information without difficulty. The PLS search bar, powered by Google™, will enable users to input pertinent projector lamp details that will offer them specifically targeted options for a more efficient experience. The search bar can also just be used to link customers to pages that provide answers to general relamping questions. PLS has provided an assortment of quality information in order to improve upon business transactions, in addition to providing an array of relevant facts for all [relampit.com](http://www.relampit.com) visitors. The goal with www.relampit.com is to make certain that the customers enter the site with confidence and feel the site is accommodating and reliable. Visit www.relampit.com and experiment with their new search bar. You may find that relampit has more to offer than just lamps.

Projector Lamp Services, LLC, provides re-lamping services for the projection display industry. Additionally, PLS now provides new Osram and Philips bare lamps and new complete lamp assemblies. PLS also offers a no charge projector lamp recycling service. The PLS Projector Lamp Recycling Center, focuses on reducing waste and environmental mercury contamination from the lamps found in front and rear projectors. We are dedicated to encouraging AV users to “think green” when it comes to replacement projector lamps.

For more information about PLS relamping and recycling, call +1(631) 244-0051 or visit our NEW website at www.relampit.com
