FOR IMMEDIATE RELEASE

Projector Lamp Services Increases Manufacturing Output

Bohemia, NY – May 4, 2009

Projector Lamp Services (PLS) continues to experience tremendous growth and development. Making vast improvements in production PLS has increased relamping capabilities and their product offering to include a variety of replacement lamp options. The recent changes have certainly affected their production. In fact, in the last 6 months PLS has doubled their manufacturing output.

While innovation can be challenging, PLS welcomes the challenge and opportunity to surpass expectations. PLS embodies the industry standard for relamping projector lamps.

They continuously strive to refine conventional processes and look to implement new processes and environmentally responsible options that will meet consumer demands. Meeting this challenge head on, Projector Lamp Services not only doubled production but increased turnaround time.

PLS manages to increase manufacturing output while continuing to ensure proper relamping techniques are utilized and that customers receive a product that is safe to use for business or at home.

Projector Lamp Services, LLC, provides re-lamping services for the projection display industry. PLS has developed a process that allows front and rear projector light sources to be remanufactured at a reduced cost without compromising lifetime or performance. PLS also offers a no charge projector lamp recycling service. The PLS Projector Lamp Recycling Center, focuses on reducing waste and environmental mercury contamination from the lamps found in front and rear projectors. We are dedicated to encouraging AV users to “think green” when it comes to replacement projector lamps.
